KIDNLY AND LIVER CURE.

### To the Readers of the Intelligencer. It is well known that hot weather brings sickness and that the greatest

care is necessary to prevent disorders sen on the part of those most healthy. What there is in the heat that should cause disease cannot certainly be known, but cholera, dysentery, debility, lassitude, verigo and many other sudden and danger-us maladies come every season and cause great suffering and thousands of deaths. Fow people go through the Summer without unpleasant symptoms. The month becomes dry and parched, the tongue furred with white, the pulse irregular, the head feverish, the body gramped and limbs swollen and tired. Indies especially, with their natural delicacy and tendency to female troubles find the hot weather almost unbearable. little Children are dying every day from exhaustion and because Parents neglect precaution and care. A prominent and, well known physician of New York asserts as his positive belief that more than three-fourths of all so-called Summer complaints are from disordered secretions, and that these see etionary organs, which, by being out of order cause so much trouble, are the kidneys and fiver. The brain controls the life, but the lower part of the body rules the health.

There is one, and only one known vegetable that will absolutely regulate and control the Kidneys and Liv'r at all times and thus prevent the many dangers of the summer. That regetable (a West India leaf.) is used as the basis of Warner's Sate Kidney and Liver Cure. It is pure, pleasant to the taste and absolutely c-rtain in its results. It keeps those who intelligently us- it in perfect health, and cures those whose secretions are deranged. For all unlary complaints of either sex it is infallible. For all bilious troubles it is certain. For the hot season it is invaluable and every person of care and intelligence should not fail to keep Warner's rule Kidney and Liver Cure near at hand, and use it upon the approach of the slightest symptoms Cure near at mand, and use it up in the tapproced in the start provent much suffering. It is for sale by druggists in all parts of the world; be careful and take no other. "A word to the wise is sufficient."
